PROFESSIONAL SUMMARY

Full Stack Developer with end-to-end experience building and deploying production web applications using **Next.js, Strapi, and PostgreSQL**, with exposure to UI/UX design and backend development.

WORK EXPERIENCE

Bharat Digital Limited (UK) | Full Stack Developer | *July 2025 - January 2025*

- Independently designed, developed, and deployed the official company website (bharatdigital.co.uk) from scratch.
- Led **UI/UX design and branding** using Figma, translating business requirements into responsive and user-friendly layouts.
- Built a **SEO-optimized frontend** using Next.js (TypeScript) with modern performance best practices.
- Developed a **headless CMS backend** using Strapi with Supabase (PostgreSQL) for job postings, applications, and contact form management.
- Implemented **resume upload functionality and automated email notifications** using Cloudinary and Brevo for applicants and administrators.
- Managed **production deployment**, domain configuration, Google Analytics integration, and authored complete technical documentation.

EDUCATION
